### CAREER OBJECTIVE

Front-End Developer with proven experience at Access Bank and Decagon in helping companies create and maintain a better code base for reusability. Passionate about learning and development with a desire to apply skills on a larger development team. Eager to tackle more complex problems and continue to find ways to maximize user efficiency.

### WORK EXPERIENCE

#### Front-End Developer

Access Bank

June 2022 - current / Lagos, Nigeria

- Rewrote HTML to meet industry and company standards for SEO and Accessibility. This drove a 600% increase in users by appearing on the first page of Google search results.
- Developed membership, event, and legal platform technology solutions, and automated internal processes.
- Designed and implemented web applications along with 3rd-party software integrations as a web team liaison for all inter-departmental and customer-facing projects.
- Developed real estate valuation, analytics, and platform technology solutions as part of a 5-person team.
- Mentored 6 team members, enabling them to achieve professional growth and personal goals.
- Reduced downtime and support issue time-to-resolution by writing technical, support documentation and knowledge based.

#### Frontend Developer

ANOC Professional Services

Dec 2019 - June 2021 / Lagos, NG

- Worked in an agile environment with weekly stand-ups, kept track of user stories/bugs in GitHub projects, and conducted 2 hours of sprint planning and sprint retrospectives per week. This process allowed production to increase by 45% while decreasing overall time invested by 20%.
- Maintained graphic standards and branding throughout the product's interfaces.
- Provide Technical and IT assistant to staff and client.
- Develop and maintain company's website with modern framework.
- Created non-technical descriptions of operations and workflow to enable non-coding team to function with minimal interruption.

Springboot  
Thymeleaf

**Testing**

J-Unit  
Mockito

- Worked with PM/IM to keep on track with the project plan, timeline, and billing. On average, this saved 4 days of communication per project.
- Designed and implemented web applications along with 3rd-party software integrations as a web team liaison for all inter-departmental and customer-facing projects.
